Mobile : 9705993009

Email : [chandrikanarkedamilli07@gmail.com](mailto:chandrikanarkedamilli07@gmail.com)

## Profile Summary :

Aspiring **Full-stack developer** with **2.3 years of experience** in creating responsive web applications using **frontend and backend technologies**. Adept at delivering high-quality code on time and ensuring seamless functionality. Collaborative team player in **Agile** environment, passionate about continuous learning and tech innovation. Posses strong communication skills, dedicated to impactful work. Seeking an innovative company to apply my expertise and grow professionally.

## Technical Proficiency :

- Frontend Technologies : HTML, CSS , JavaScript ,SCSS.
- Frameworks & Libraries : React JS, Material UI, React Router, Hooks, Leaflet.
- Backend Technologies : Node JS, Express JS, REST API, Java(mid-level)
- Databases : Mongo DB , SQL, MySql
- Methodologies : Agile
- Deployment Tools : GIT, Github, BitBucket.

## Professional Experience : (July 2022 – present)

Working in one of the world's leading financial institutions **Tata Consultancy Services (TCS)**, serving individual consumers, small and middlemarket businesses and large corporations .

## Projects :

**FCA** is a multinational automobile company engaged in the manufacturing, design, and selling of vehicles and their components. I worked as a **Full Stack Developer** here.,

### Dealer Connect Application : (currently)

- Worked for the Dealer Connect application. Enhanced dashboards that display dealer inventory and vehicle availability information and some fixes.
- Improved the **functionalities** for the effective management of scheduling and maintaining appointments
- Developed tools that helps **configure and customize** vehicle options for the dealers
- Conducted performance tuning and ensured secure **data handling** of customer information
- Handled **geo-location** services by integrating **maps** for displaying location and tracking facilities.

### Customer Service Management Portal: (1.3 years)

- Worked for the Customer service management portal.
- Designed & implemented **customer portal** for managing vehicle information, service appointment calendars and other updates.
- Maintained and optimized **mapping services** for customers to find the nearest service centers.
- Built a section for managing customer profiles, purchase history, **search and filter** functionalities.
- Worked on **bug fixes** for the issues faced by the users in the application.

## **Personal Projects :**

Link to view my portfolio page : <https://portfolio-phi-five-16.vercel.app/>

- **Swiggy(Online Food Delivery App) :**

**Technologies used:** Mongo DB, Express.js, React.js, Node.js (MERN stack), JWT ,RESTful APIs, Material UI.

**Description:** Developed an interactive food delivery application that allows users browse various restaurants and food items where one can add the items to the cart and place order. This application includes various features such as API integration, dynamic data fetching, image sliders, item filtering, and more.

- **Swiggy Partner(Vendor Dashboard) :**

**Technologies used:** React.js, Mongo DB, Express.js, Node.js (MERN stack), JWT, Bcrypt, RESTful APIs, Material UI, CSS.

**Description:** Developed a comprehensive Vendor dashboard for restaurant owners to add restaurants and food items. This application also includes customizing the food items, Token based user authentication and encryption, API Integration, CRUD operations etc.,

- **Estate Verse(Real-estate App):**

**Technologies used:** React.js, React Router, React Hooks, Axios, Leaflet, JWT, prisma, SCSS, React quill, Node JS , Express JS, Rest API.

**Description:** Developed a real estate application used for browsing, listing, and managing properties. The app features an intuitive design along with maps, property filters, efficient communication with API,JWT user authentication and session management.

- **IPL (cricket info app) :**

**Technologies used:** React.js, Material-UI (MUI), React Router, React Hooks, ES6.

**Description:** Developed a comprehensive IPL information app that includes match schedules, points table, fan polls, team information, player records etc., The application utilizes modern front-end technologies to provide an interactive and user-friendly experience.

## **Soft Skills :**

Communication Skills, Team Management , Problem Solving , Detail Oriented.
